

Taylorsville-Bennion improvement District has hired Granite Inliner to line over 7,000 lineal feet of sewer pipe ranging in size from 27" to 36" in diameter with cured-in-place pipe (CIPP) in Redwood Road and Meadowbrook Expressway. In order to do the work the sewer flows will be by-passed around the project during the construction period. It is anticipated that the Contractor will start the lining work mid-July and be completed in September, with the majority of the work being done at night and on weekends.
